Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1906 Excerpt: .strength of the fiber, and also is harmless on the skin of the hands. Periodate as a Reagent. Benedict (Am. Chem. Jour., XXXIV., 581). One or two drops of a N/10 solution of potassium periodate (KIO<sub>4</sub>) added to a neutral or ammoniacal solution of Mn gives a red precipitate, or, if Mn is small, a red coloration. If neutral, the color persists. In presence of NH<sub>3</sub> it slowly blackens. NaOH blackens it almost immediately; HCl dissolves it. Per contra, Mn salt may be used as a test for periodates. Zn is precipitated white by KIO<sub>4</sub>, except in presence of NH<sub>4</sub>Cl and NH<sub>4</sub>OH, in the cold. On boiling the precipitate forms. With Ni salts KIO<sub>4</sub> gives a light green precipitate; the Co precipitate is dark brown and dissolves on boiling to a greenish-black solution. By this means 0.1 per cent. Co can be detected in Ni solutions. Ferrous Oxalate for Standardizing. Barbieri and Neppi (Rendiconti Soc. Chim. Rom., III., 16). This salt is claimed to be free from the various objectionable features of the other substances used for standardizing permanganate, etc. It is easily prepared by precipitating a ferrous salt with H<sub>2</sub>C<sub>2</sub>O<sub>4</sub>. The yellow crystalline precipitate does not oxidize in air and has the constant composition FeC<sub>2</sub>O<sub>4</sub>.2H<sub>2</sub>O. Dissolved in dilute H<sub>2</sub>SO<sub>4</sub> in the cold it reacts with permanganate thus: 6KMnO<sub>4</sub> + 10FeC<sub>2</sub>O<sub>4</sub> + 24H<sub>2</sub>SO<sub>4</sub> = 3K<sub>2</sub>SO<sub>4</sub> + 6MnSO<sub>4</sub> + 5Fe<sub>2</sub>(SO<sub>4</sub>)<sub>3</sub> + 20CO<sub>2</sub> + 24H<sub>2</sub>O. Ammonia in Waters. Cavalier and Artus (Bull. Soc. Chim.,...
