

Power-Aware Computer Systems: First International Workshop, Pacs 2000 Cambridge, Ma, USA, November 12, 2000 Revised Papers

Filesize: 2.03 MB

Reviews

The ebook is straightforward in read through preferable to comprehend. It is definitely simplified but shocks within the fifty percent of your pdf. Your lifestyle span is going to be transform when you total reading this publication.

(Dr. Jarrett Bednar)

POWER-AWARE COMPUTER SYSTEMS: FIRST INTERNATIONAL WORKSHOP, PACS 2000 CAMBRIDGE, MA, USA, NOVEMBER 12, 2000 REVISED PAPERS

Springer. Paperback. Book Condition: New. Paperback. 158 pages. Dimensions: 9.1in. x 5.9in. x 0.5in. The phenomenal increases in computer system performance in recent years have been accompanied by a commensurate increase in power and energy dissipation. The latter has directly resulted in demand for expensive packaging and cooling technology, an increase in product cost, and a decrease in product reliability in all segments of the computing market. Moreover, the higher powerenergy dissipation has significantly reduced battery life in portable systems. While system designers have traditionally relied on circuit-level techniques to reduce energy, there is a growing need to address powerenergy dissipation at all levels of the computer system. We are pleased to welcome you to the proceedings of the Power-Aware Computer Systems (PACS 2000) workshop. PACS 2000 was the first workshop in its series and its aim was to bring together experts from academia and industry to address power-energy-awareness at all levels of computer systems. In these proceedings, we bring you several excellent research contributions spanning a wide spectrum of areas in power-aware systems, from application all the way to compilers and microarchitecture, and to powerperformance estimating models and tools. We have grouped the contributions into the following specific categories: (1) power-aware microarchitectural circuit techniques, (2) application compiler power optimizations, (3) exploiting opportunity for power optimization in instruction scheduling and cache memories, and (4) powerperformance models and tools. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
